

HYGIENICA HX PRO PLUS

ELECTRO-HYGIENE SYSTEM

PUTTING TECHNOLOGY TO WORK

- HYGIENICA technology kills the virus in conjunction with any EPA registered disinfectant and has been proven to be highly effective at eliminating 99.99% of all viruses, pathogens and bacteria.
- HYGIENICA technologies are designed to atomize the disinfectant with a micron size >40-60 uM when applied to surfaces and will kill the virus in 2+ minutes with proper dwell time, depending on the product.
- HYGIENICA Electro-Hygiene System is the choice technology for technical remediation specialists.
- The HX Pro Model produces up to 20,000 sf per hour.

PRODUCT SPECIFICATION	
Model	HX Pro Plus
Power	110V or 220V AC
Tank Size	10L or 2.7 Gallons
Particle Size	40 - 60 microns
Productivity	Up to 20,000sf/hr
Compatible Disinfectants	Any EPA Registered Disinfectant (List N)

BENEFITS

- CARES Act Approved for Schools
- Ideal for all facility types
- Ergonomic
- Efficient use of disinfectant
- Industrial Grade
- Versatile
- IoT Analytics (coming Fall 2020)

APPLICATIONS

- Restrooms
- Office Areas
- Transportation
- Schools
- Public Spaces
- Manufacturing
